Why Open a Savings Account for a Child?

A brighter financial future starts early!

1 BUILDS GOOD HABITS

Helps children learn the importance of saving money and making smart financial choices early in life.

2 TEACHES FINANCIAL SKILLS

Gives them a hands-on way to understand how money works, including earning, saving and setting goals.

3 HELPS THEM REACH GOALS

Whether it's a new bike, a special toy, or college someday, a savings account helps them work toward the things that matter most.

4 TAKES ADVANTAGE OF TIME

The earlier they start saving, the more time their money has to grow through the power of compounding.

5 PROVIDES A SAFE PLACE

Keeps their money secure in a trusted financial institution, separate from cash at home.

6 INVESTS IN THEIR FUTURE

Builds a strong foundation for bigger dreams like higher education, career opportunities and financial independence.

Small Steps Today. Brighter Tomorrows.
